➢ What is this product?

Type: This product is an open-ended umbrella investment company.

Term: No fixed term.

Objectives: The Sub-Fund will employ an active management approach and principally invests in equities, irrespective of specific geographical location, throughout the world. Investments may also be made in equity related securities comprising convertible bonds with equity linked notes which bonds shall be fixed and/or floating rate and investment grade although any such investment would not be a significant part of the portfolio. The Sub-Fund is not managed in reference to any benchmark. The Sub-Fund will not invest in leveraged notes.

It is the policy of the Sub-Fund that the portfolio will be invested in a select group of superior global companies, with the aim of achieving consistent returns on a long term basis. The investment approach is orientated to identifying and investing in superior businesses at reasonable valuations. No consideration will be given to country or global index weightings, nor will the Sub-Fund be always fully invested in equities. As a result performance may be significantly different from that of individual markets in which it is invested, or the performance of commonly followed global indices.

The assets of the Sub-Fund may, in addition to any investments referred to above, include CIS, cash, deposits and short-term paper including treasury bills, certificates of deposit and bankers' acceptances. Cash and deposits will be held as ancillary liquid assets only. The Sub-Fund may invest up to 10% of its Net Asset Value in other CIS.

The Sub-Fund's investment in equities may include investment in Chinese companies which may include China A Shares, China H-Shares and American Depository Receipts. Any such exposure is not expected, in aggregate, to represent more than 10% of the Sub-Fund at the time of purchase.

The Sub-Fund may employ financial derivative instruments comprising contracts for differences, futures and options, all of which are on equities or equity related securities listed above, for efficient portfolio management and for hedging purposes within the limits laid down by the Central Bank. The Sub-Investment Manager is Veritas Asset Management LLP.

The Fund seeks to promote environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulations.

Intended retail investor: Investment in the Sub-Fund is suitable for investors seeking long term capital growth and who are prepared to accept a degree of high volatility.

Depositary: The Fund's assets are held through its Depositary, which is Citi Depositary Services Ireland Designated Activity Company.

Distribution type: The product is accumulating.

What are the risks and what could I get in return?

Risk indicator

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Fund's Prospectus available at www.nedgroupinvestments.com.

The Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: GBP 10,000		**1 year**	**5 years**
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	**What you might get back after costs**	GBP 6,380	GBP 2,290
	Average return each year	-36.25%	-25.51%
Unfavourable scenario[1]	**What you might get back after costs**	GBP 9,040	GBP 9,600
	Average return each year	-9.61%	-0.81%
Moderate scenario[2]	**What you might get back after costs**	GBP 10,700	GBP 14,770

Favourable scenario[3]	**What you might get back after costs**	GBP 12,590	GBP 18,100
	Average return each year	25.95%	12.60%

[1]This type of scenario occurred for an investment from 01/2025 to 07/2026.

[2]This type of scenario occurred for an investment from 06/2019 to 06/2024.

[3]This type of scenario occurred for an investment from 08/2016 to 08/2021.

What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Fund are segregated from those of the PRIIP Manufacturer. The assets of the Fund are held in safekeeping by the Depositary. In the event of the insolvency of the PRIIP Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. In the event of the insolvency of the Depositary, you may suffer financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

➢ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- GBP 10,000 is invested

Example Investment: GBP 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	GBP 111	GBP 774
Annual cost impact(*)	1.11%	1.11% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 9.22% before costs and 8.11% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	**Entry costs**	**We do not charge an entry fee.**	GBP 0
	Exit costs	**We do not charge an exit fee for this product, but the person selling you the product may do so.**	GBP 0
Ongoing costs taken each year	**Management fees and other administrative or operating costs**	**1.04% of the value of your investment per year. This is an estimate based on actual costs over the last year.**	GBP 104
	Transaction costs	**0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.**	GBP 7
Incidental costs taken under specific conditions	**Performance fees and carried interest**	**There is no performance fee for this product.**	GBP 0

➢ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

This product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 5 years. You may sell your shares in the product, without penalty, on any day on which the banks are normally open for business in Ireland and the Isle of Man.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

➢ How can I complain?
