Portfolio attributes

Investment objectives

The Sub-Fund aims to provide investors with long-term capital growth through low cost exposure to a range of global asset classes.

Investment policy

- The Sub-Fund will employ an active asset allocation approach and will invest primarily in acceptable collective investment schemes (CIS) that track the performance of investment indices (index trackers).
- These CIS may include other UCITs funds and exchange traded funds (ETF).
- In aggregate, the Sub-Fund will invest indirectly across a broad range of geographic areas and asset classes, predominantly in equities, fixed income, cash and listed property.
- The portfolio is not managed in reference to any benchmark, asset class restraints or a targeted return.

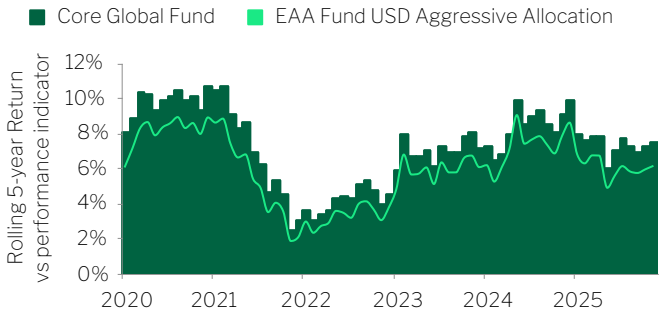

Fund related risks

- Due to fluctuations of the market, and performance of individual companies, Equity Risk can impact funds.
- Changes in Currency exchange rates may have an impact on the value of the fund.
- Credit Risks include, but are not limited to, issuers defaulting or having their credit rating downgraded which devalues the bonds they issue.
- For full details of risks, please refer to the risk section in the Prospectus and KIID.

About the Sub-Investment Manager

BlackRock Investment Management is the world's largest independent asset management firm and have pioneered and led the index fund market since the 1970s. The Core Global Fund is implemented along BlackRock's Total Performance Investment Philosophy which consists of constructing a solution that maximises the total return of a portfolio by considering the performance, cost and tax implications of different underlying building blocks. They have been managing the Core Global Fund since its inception in 2015.

Definitions

1) The ongoing charges figure is estimated, based on the expected total of charges likely to be charged to the share class in the future. An estimate is being used as insufficient expense information is available as at the date of this document. The Fund's annual report for each financial year will include detail on the exact charges made. This figure excludes portfolio transaction costs (except for entry/exit charges paid when buying/selling shares in other schemes). This figure may vary from year to year.

2) The annualised total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of any reinvestment and dividend withholding tax.

3) Performance data is sourced from leading data providers, including Bloomberg and Morningstar, and is accurate as of the date of this document.
