Portfolio attributes

- Investment objectives**

The Sub-Fund aims to provide investors with long term capital growth through investment primarily in equity and equity related securities. These securities will be issued by companies domiciled in or whose principal business activities are conducted in emerging markets countries, with no particular industry or geographical focus.
- Investment policy**
 - The Sub-Fund will employ an active management approach and may invest in Global Emerging Market equities and equity related instruments.
 - May also invest on an opportunistic basis in countries which are considered as frontier or developed markets to a maximum of 15% in aggregate.
 - The portfolio is not managed in reference to any benchmark and may invest in initial public offerings.
 - Adheres to article 6 of SFDR classification.
- Fund related risks**
 - Sensitivity to economic, social and political conditions result in additional risks associated with emerging markets.
 - Due to fluctuations of the market, and performance of individual companies, equity risk can impact funds.
 - Changes in currency exchange rates may have an impact on the value of the fund.
 - For full details of risks, please refer to the risk section in the Prospectus and KIID.

► Definitions

- 1) Total Investment Charges (TIC) are the sum of the Ongoing Charges and the Transaction Costs (TC) and are expressed as a percentage of the total fund on an annual, rolling basis.
- 2) TC relate to the buying and selling costs for the underlying assets of the fund and are a necessary expense in the administration of the fund. Neither the TIC nor the TC should be considered in isolation as all returns may be impacted by other factors over time, including but not limited to market movements, fund type and the decisions of the Investment Manager(s).
- 3) TIC & TC are calculated on an annual basis but are subject to change subject to any market changes throughout the year which may impact the funds' future TIC. Higher TIC does not necessarily equate a lower return, nor does a lower TIC equate to a better return. The TIC may change, and as such the current TIC may not be an accurate indication of the future TIC.
- 4) The ongoing charge is a measure of the actual expenses incurred in the management of the Classes of the Sub-Fund. The ongoing charge shown is expressed as a percentage of the monthly average value of the portfolio calculated over a 12- month period as at the date shown. The current on-going charge cannot be used as an indication of future ongoing fees. A higher on-going fee does not necessarily imply a poor return, nor does a low on-going fee imply a good return.
- 5) The annualised total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of any reinvestment and dividend withholding tax.

The sub-funds of the Fund (the Sub-Funds) are generally medium to long-term investments and the Investment Manager does not guarantee the performance of an investor's investment and even if forecasts about the expected future performance are included the investor will carry the investment and market risk, which includes the possibility of losing capital.

The views expressed herein are those of the Investment Manager / Sub-Investment Manager at the time and are subject to change. The price of shares may go down as well as up and the price will depend on fluctuations in financial markets outside of the control of the Investment Manager. Costs may increase or decrease as a result of currency and exchange rate fluctuations. If the currency of a Sub-Fund is different to the currency of the country in which the investor is resident, the return may increase or decrease as a result of currency fluctuations. Income may fluctuate in accordance with market conditions and taxation arrangements. As a result an investor may not get back the amount invested. Past performance is not indicative of future performance and does not predict future returns. The performance data does not take account of the commissions and costs incurred on the issue and redemption of shares. Fees are outlined in the relevant Sub-Fund supplement available from the Investment Manager's website. The Sub-Funds are valued using the prices of underlying securities prevailing at 11pm Irish time the business day before the dealing date. Prices are published on the Investment Manager's website.
