You are advised to read it so you can make an informed decision about whether to invest.

Nedgroup Investments Funds Plc (the Fund) Contrarian Value Equity Fund (the Sub-Fund) USD 'C' Share Class (ISIN: IE00BF5FMF37)

The Fund is managed by Carne Global Fund Managers (Ireland) Limited ("The Manager")

Objectives and investment policy

The Sub-Fund aims to provide long-term capital growth. Investors should be prepared for periods of high volatility.

In order to pursue its investment objective the Sub-Fund may invest in equity securities which will primarily be common stocks and other securities with equity characteristics, comprising preferred stocks, warrants and rights as well as depositary receipts for such securities and convertible bonds. The Sub-Fund may invest in financial derivative instruments (**FDI**) comprising options, futures and forwards all of which may be on interest rates, exchange rates, equities, bonds or currency, as well as equity swaps as more particularly described in the Prospectus and such FDI, may be used for the efficient portfolio management and for hedging purposes, but not for investment purposes within the limits set down by the Central Bank of Ireland. The Sub-Fund will not be leveraged in any way through the use of these instruments.

Investment will take place on an unconstrained, opportunistic and absolute basis across a variety of industries and geographies including emerging markets and will not be bound by benchmarks, asset class constraints or a targeted rate of return.

The Sub-Fund is actively managed and is not managed in reference to any benchmark.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Other Information:

Risk and reward profile

The Sub-Fund is ranked at 6 reflecting observed historical returns. This is not a measure of any risk of capital but rather a measure of the past fluctuations in the value of the Sub-Fund.

The risk category shown is not guaranteed and may shift over time. The indicator uses a standard calculation method that is used by all UCITS funds.

The risk category indicator is based on historical data and may not be a reliable indication of future risk profile.

The lowest category of 1 does not mean "risk free".

The following are risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Liquidity Risk – lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to readily buy or sell investments.
- Investment Market Risk – the value of investments in the Sub-Fund are subject to a variety of factors affecting global stock markets.

- Operational Risk – the impact of breakdowns in systems, internal procedures and human error.
- Equity Risk – investments may be volatile and may fluctuate according to market conditions, the performance of individual companies and that of the broader equity market.
- Currency Risk – the value of the Sub-Fund may be affected by changes in currency exchange rates for those securities held in a non-base currency (USD).
- Derivative Risk – the Sub-Fund may use derivative instruments for hedging and for efficient portfolio management. This may result in gains or losses that are greater than the original amount invested. Derivatives may also be used to protect against potential risks. There is no guarantee that derivatives will provide the anticipated protection
- Counterparty Risk – the Sub-Fund is subject to the risk that third parties with which the Sub-Fund may transact may go bankrupt or fail to pay money due to the Sub-Fund or return property belonging to the Sub-Fund.
- Emerging Markets Risk - emerging markets are generally more sensitive to economic, social and political conditions than developed markets. Other factors include volatility and reduced market liquidity.

For further details please refer to Section 4 - Risk Factors in the Fund's Prospectus.
