

Nedbank ID

Enhanced security on your investments

Use your Nedbank ID to access your Nedgroup Investments online profile.

What is Nedbank ID?

Nedbank ID is the username and password combination of a user's choice that they need to use to login into all Nedbank digital platforms. To create a Nedbank ID, you need your SA ID number and your cellphone number.

If you have an account with Nedbank, either a bank or stockbroking account, you may have a Nedbank ID. This means you will need to use the same login details you use to access your Nedbank account online to log into your Nedgroup Investments profile.

It's important not to share your login details with anyone as these details can be used to access your other Nedbank accounts.

The benefits of Nedbank ID

- Enhanced security
- Improved login performance
- Creating a Nedbank ID is easy, all you need is your South African ID and cellphone
- Only need to remember one set of credentials for all Nedbank platforms
- Creates an audit trail specific to each user

How to get started

Go to www.nedgroupinvestments.com and click on log in now, you may either continue with your Nedbank ID (if you have one) or click on Register now and follow the prompts to create your Nedbank ID.

When you log in for the first time with your Nedbank ID, you will need to enter your current login credentials. This once-off exercise will allow us to link your Nedbank ID to your Nedgroup Investments profile.
