This form will only be accepted when submitted with a completed and signed ‘Client Details – Existing Individual Investor’ form available from our Client Services Centre.

### 1. Investor details

Investor name

SA ID number / Passport number

### 2. Retirement fund notes

The implementation of the two-pot retirement system effective from 1 September 2024 has changed the South African retirement fund landscape. Your retirement savings up to 31 August 2024 were ringfenced into a vested component and the previous retirement fund rules will continue to apply to this component. All new contributions made to retirement funds from 1 September 2024 will be split between a savings component and a retirement component, unless certain exemptions apply, in which case neither of these two components are created. The savings component will initially be seeded with an allocation of 10% of the total market value of your vested component, limited to R30 000.

- **Savings component** – One-third of your contribution will go into this component. If you need to access your savings before retirement in the case of a financial emergency, you will have the option to make one withdrawal every tax year from this component, which will be taxed at your marginal tax rate. At retirement, the remaining value in this component can be taken in cash or used to purchase an annuity
- **Retirement component** – Two-thirds of your contribution will go into this component. Your retirement component must remain invested until your formal retirement, at which time it must be used to purchase an annuity that will provide you with income during your retirement
- **Vested component including any vested benefit** – No further contributions may be made to your vested component. Your vested component must remain invested until you retire, at which time a part thereof, to a maximum of one-third, can be taken as cash and the rest must be used to purchase an annuity (100% in respect to your vested benefit)

All these components are linked by an investment contract number, and they will be treated as one investment into the retirement fund when transacting. You may only select one set of underlying funds that will apply to your savings and retirement fund components.

Investment contract to which this additional investment instruction applies

### 3. Investment details

#### Investment amount

**Please note:**

Effective 1 September 2024, all contributions made to your Retirement Annuity Fund will be split as follows:

- One-third of contributions will go into your savings component
- Two-thirds of contributions will go into your retirement component

Total investment amount R

### 4. Unit Trust portfolio selection

**Please note:**

- Additional investments can only be processed into trustee approved portfolios which are reviewed and adjusted from time to time. If you have an investment that is not on the approved list, you cannot add to it
- Income distributions will be reinvested (after tax if applicable)

**Financial planning fees (if applicable)**

- When investing into an existing account, all features of your existing account will remain in place, if an annual financial planner fee has been specified it will replace the existing fee
- When investing into a new account, if no fees have been specified, 0% will be applied, if a fee higher than the maximum is specified the maximum will be applied. If you have nominated an account from which the annual fee is to be recovered, your selection will apply to the switched in amount
- Initial fees in respect to debit orders will be deducted off each debit order amount before investing into the selected unit trust portfolio

					Only applicable if investing with a Financial Planner
