If ‘Yes’, please note the limits that apply to withdrawal benefits

2. Retirement fund notes

The implementation of the two-pot retirement system effective from 1 September 2024 has changed the retirement fund landscape. Your retirement savings up to 31 August 2024 were ringfenced into a vested component and the previous retirement fund rules will continue to apply to this component. All new contributions to retirement funds must be split between a savings component and a retirement component unless certain exemptions apply in which case neither of these two components are created. Any savings component will initially be seeded with an allocation of 10% of the total market value of your vested component, limited to R30 000.

Each investment contract may be split between a savings, retirement, and vested (incl vested benefit) components.

3. Withdraw options

- 3.1. You are entitled to one withdrawal from your savings component every tax year which will be taxed at your **marginal rate of tax**. At retirement, any remaining value in this component can be taken in cash or used to purchase an annuity.
- 3.2. You are entitled to a once off withdrawal from your vested component (including the vested benefit pre-1 March 2021 contributions if applicable).
- 3.3. You may access 100% of the total value of your Preservation Fund across all investment contracts if you are no longer a tax resident of South Africa.

Tax may be payable on withdrawal and a tax directive must be obtained from the South African Revenue Service (SARS) prior to processing your instruction which may delay payment. **Once we have applied for a tax directive in respect of this withdrawal instruction you cannot cancel the instruction.**

We cannot process this instruction unless we have your South African income tax number on record.
