Portfolio attributes

Investment objectives

- Aims to maximise total returns for investors over the long term.
- Exposure to equity, bond, money or property markets locally and abroad.
- The asset allocation will be actively managed, reflecting the portfolio managers' view of asset class valuations.

Investment policy

- Invests anywhere in the world utilising a wide array of asset classes including bonds and equities.
- Focus on long-term capital accumulation, while preserving capital in the short-term.
- Demonstrates investment flexibility where equity allocation can range between 45% and 90%.
- Asset allocation and security selection are conducted independent of traditional benchmarks.
- Strong value bias and only invests in companies trading at a discount to their intrinsic value.

Fund related risks

- Equity and listed property investments are volatile by nature and subject to potential capital loss.
- Fixed income instruments, including corporate and government bonds, may experience capital loss in the event an issuer defaults on their interest or principal payments.
- The portfolio may be subject to currency fluctuations due to its international exposure.

About the fund manager

Aylett & Co. is an owner managed company established in 2005. A concentrated stable team of experienced investment professionals has an objective to manage portfolios in a rational, well informed and independent manner. They seek to buy great businesses that are well managed and trading at attractive valuations. The team invest alongside their investors in managed unit trusts, ensuring a high alignment of interests. Aylett has managed the Bravata Fund since its inception in 2005.

Investment philosophy

Aylett believe that financial markets are inefficient and mispricing of securities can be identified and exploited overtime.

Focus on selecting good businesses first, with attention to sustainable cash flow generation.

Target companies trading at a price below assessed intrinsic value to enhance the probability of investment success.

Decisions are implemented upon conviction of the portfolio management team.

Definitions

- 1) The annualized total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Due to the delayed release of inflation data, relevant benchmarks will lag by one month. Data source: © Morningstar Inc. All rights reserved.
- 2) Total Expense Ratio (TER), expressed as a percentage of the Fund class, relates to expenses incurred in the administration of the Fund class. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction Costs (TC), expressed as a percentage of the Fund class, relate to the costs incurred in buying and selling the underlying assets of the Fund class. TC are a necessary cost in administering the Fund class and impact Fund class returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund class, relates to all investment costs of the Fund class. Both the TER and TC of the Fund class are calculated on an annualised basis, beginning 2020-10-01 and ending 2023-12-31. Where the Fund class is less than 3 years old, the TER and Transaction Costs cannot be determined accurately because of the short life span of the Financial Product. Calculations are based on actual data where possible and best estimates where actual data is not available.
- 3) The Equity Index referred to under Risk measure is the FTSE/JSE All Share Index (ALSI).

► Disclaimer

Nedgroup Collective Investments (RF) Proprietary Limited is an authorised Collective Investment Scheme Manger and the representative of Nedgroup Investments Funds PLC in terms of the Collective Investment Schemes Control Act 45 of 2002. It is also a member of the Association of Savings & Investment South Africa (ASISA).
