Portfolio attributes

Investment objectives

- The portfolio objective is to provide investors with capital growth by investing in equities.
- Investors should be prepared for, and be comfortable with, market volatility in order to achieve long-term objectives.
- The portfolio is suitable for investors seeking exposure to equity markets with maximum capital appreciation as their primary goal over the long term.

Investment policy

- A general equity portfolio where the investment manager adopts a bottom-up approach to position the fund.
- Stock picking decisions are based on exploiting market inefficiencies through diligent fundamental analysis.
- The fund will comprise of equity securities, both locally and offshore, and may also invest in participatory interests in portfolios of collective investment schemes.

Fund related risks

- Equity investments are volatile by nature and are subject to potential capital loss.
- The portfolio may be subject to currency fluctuations due to its international exposure.

About the fund manager

Nedbank Private Wealth is predominantly focused on managing South African portfolios. They have a robust, proven investment process with a market-leading track record dating back to 2004. The cornerstones of their investment process are based on valuation, the assessment of quality and taking a long-term view. The team builds concentrated, but diversified portfolios that aim to deliver superior returns over three-to-seven-year periods.

Investment philosophy

Nedbank Private Wealth's investment philosophy is defined as: long-term, well considered.

The process is built on making an assessment of the quality of an investment and paying a fair price by being valuation focused.

They also have the patience and discipline to give an investment sufficient time to compound value over the investment horizon.

Nedbank Private Wealth focus on evaluating earnings growth, dividend growth and the potential change in valuation rating of a business.

They also have a strong focus on risk management, which is managed by position size and ensuring appropriate diversification.

Definitions

- 1) The annualized total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Due to the delayed release of inflation data, relevant benchmarks will lag by one month. Data source: © Morningstar Inc. All rights reserved.
- 2) Total Expense Ratio (TER), expressed as a percentage of the Fund class, relates to expenses incurred in the administration of the Fund class. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction Costs (TC), expressed as a percentage of the Fund class, relate to the costs incurred in buying and selling the underlying assets of the Fund class. TC are a necessary cost in administering the Fund class and impact Fund class returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund class, relates to all investment costs of the Fund class. Both the TER and TC of the Fund class are calculated on an annualised basis, beginning 2022-07-01 and ending 2025-06-30. Where the Fund class is less than 3 years old, the TER and Transaction Costs cannot be determined accurately because of the short life span of the Financial Product. Calculations are based on actual data where possible and best estimates where actual data is not available.
- 3) The Equity Index referred to under Risk measure is the FTSE/JSE All Share Index (ALSI).
- 4) The FTSE/JSE Capped SWIX 40 Index (J430) was adopted as the benchmark from 01 Oct 2021. Previous benchmark was the FTSE/JSE SWIX 40 Index (J400) from 01 Jan 2012 and the FTSE/JSE All Share Index (J203) from 01 May 2004.

► Disclaimer

Nedgroup Collective Investments (RF) Proprietary Limited is an authorised Collective Investment Scheme Manger and the representative of Nedgroup Investments Funds PLC in terms of the Collective Investment Schemes Control Act 45 of 2002. It is also a member of the Association of Savings & Investment South Africa (ASISA).
