

# Key Information Document

Core Global Fund  
A sub fund of Nedgroup Investments Funds Plc  
Class C USD

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

**Name:** Core Global Fund Class C USD  
**ISIN:** IE00BYY7YS09  
**PRIIP Manufacturer:** Nedgroup Investments (IOM) Limited  
**PRIIP Manufacturer Website:** [www.nedgroupinvestments.com](http://www.nedgroupinvestments.com)  
**Telephone:** +44(0)1624645150

The Central Bank of Ireland is responsible for supervising Nedgroup Investments (IOM) Limited in relation to this Key Information Document.

This PRIIP is authorised in Ireland.

Carne Global Fund Managers (Ireland) Limited is authorised in Ireland and regulated by the Central Bank of Ireland.

The key information document is accurate as at 31 December 2022.

## What is this product?

**Type:** This product is an open-ended umbrella investment company.

**Term:** No fixed term.

**Objectives:** The Sub-Fund's objective is to provide capital growth through low cost exposure to a range of global asset classes. Diversification across asset classes will help to reduce risk and volatility to moderate levels over the medium to longer term. The Sub-Fund will employ an active management approach and will invest primarily in acceptable collective investment schemes that track the performance of investment indices relating to different types of assets described in the Sub-Fund's Supplement. The Sub-Investment Manager is BlackRock Investment Management (UK) Limited.

**Intended retail investor:** Investment in the Sub-Fund is suitable for investors seeking a moderate degree of growth with moderate levels of risk and volatility over the medium to longer term.

**Depository:** The Fund's assets are held through its Depository, which is Citi Depository Services Ireland Designated Activity Company.

**Distribution type:** The product is accumulating.

## What are the risks and what could I get in return?

### Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance as a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Fund's Prospectus available at [www.nedgroupinvestments.com](http://www.nedgroupinvestments.com).

The Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product/benchmark over the last 5 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

| Example investment: \$ 10,000  |  | 1 year    | 5 years   |
|--|--|-----------|-----------|
| <b>Minimum</b> There is no minimum guaranteed return. You could lose some or all of your investment. |  |           |           |
| <b>Stress Scenario</b>   | <b>What you might get back after costs</b> | \$ 4,010  | \$ 3,220  |
|  | <b>Average return each year</b>            | -59.93%   | -20.27%   |
| <b>Unfavourable Scenario <sup>1</sup></b>  | <b>What you might get back after costs</b> | \$ 7,780  | \$ 7,550  |
|  | <b>Average return each year</b>            | -22.16%   | -5.46%    |
| <b>Moderate Scenario <sup>2</sup></b>  | <b>What you might get back after costs</b> | \$ 10,170 | \$ 11,860 |
|  | <b>Average return each year</b>            | 1.71%     | 3.47%     |
| <b>Favourable Scenario <sup>3</sup></b>  | <b>What you might get back after costs</b> | \$ 13,240 | \$ 16,190 |
|  | <b>Average return each year</b>            | 32.36%    | 10.11%    |

<sup>1</sup>This type of scenario occurred for an investment from 2021-08-31 to 2022-09-30

<sup>2</sup>This type of scenario occurred for an investment from 2015-07-31 to 2020-07-31

<sup>3</sup>This type of scenario occurred for an investment from 2016-12-31 to 2021-12-31

## ➤ What happens if Nedgroup Investments (IOM) Limited is unable to pay out?

You may face a financial loss should the manufacturer or the Depositary, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## ➤ What are the costs?

### Cost over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- \$ 10,000 per year is invested

| Example investment: \$ 10,000 | If you cash in after 1 year | If you cash in after 5 years |
|-------------------------------|-----------------------------|------------------------------|
| <b>Total costs</b>            | \$ 390                      | \$ 928                       |
| <b>Annual cost impact(*)</b>  | 3.90%                       | 1.57%                        |

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.04% before costs and 3.47% after costs.

### Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

| The table shows the impact on return per year           |  | Annual cost impact if you exit after 5 years   |         |
|---|--|--|---------|
| <b>One-off costs upon entry or exit</b>                 | <b>Entry costs</b>   | <b>3.00% of the amount you pay in when entering this investment</b>  | \$ 300  |
|   | <b>Exit costs</b>  | <b>We do not charge an exit fee for this product, but the person selling you the product may do so.</b>  | \$ 0    |
| <b>Ongoing costs taken each year</b>                    | <b>Management fees and other administrative or operating costs</b> | <b>0.43% of the value of your investment per year. This is an estimate based on actual costs over the last year.</b>   | \$ 43   |
|   | <b>Transaction costs</b>   | <b>0.46% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.</b> | \$ 46.5 |
| <b>Incidental costs taken under specific conditions</b> | <b>Performance fees and carried interest</b>                       | <b>There is no performance fee for this product.</b>   | \$ 0    |

---

## ➤ How long should I hold it and can I take my money out early?

---

**The recommended minimum holding period: 5 years.**

This product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 5 years. You may sell your shares in the product, without penalty, on any day on which the banks are normally open for business in Ireland and the Isle of Man.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

---

## ➤ How can I complain?

---

If you wish to make a complaint, you should in the first instance do so either orally or in written format. Please direct complaints to any of the following:

By e-mail: [helpdesk@nedgroupinvestments.com](mailto:helpdesk@nedgroupinvestments.com)
