This PRIIP is authorised in Ireland.

Carne Global Fund Managers (Ireland) Limited is authorised in Ireland and regulated by the Central Bank of Ireland.

The key information document is accurate as at 31 December 2022.

## ➤ What is this product?

**Type:** This product is an open-ended umbrella investment company.

**Term:** No fixed term.

**Objectives:** The Sub-Fund will employ an active management approach and will invest primarily in and gain exposure to equity and equity-related securities with large and medium capitalisations on a global basis which are listed or traded on Regulated Markets. The Sub-Fund will invest in companies across a range of sizes, sectors and geographical locations and does not focus investment on a particular industry or sector. The Sub-Fund when fully invested is intended to be invested in excess of 150 stocks. Exposure to emerging markets is not expected to exceed 35% of Net Asset Value. The Sub-Investment Manager, in its discretion, will determine which countries constitute emerging market countries which may change from time to time. The Sub-Fund is not managed in reference to any benchmark.

Where the Sub-Investment Manager considers there to be a negative investment climate such as where volatility as analysed and measured by the Sub-Investment Manager has risen beyond a certain level, the Sub-Fund may liquidate investments and hold the proceeds or may retain amounts in cash or ancillary assets pending investment or reinvestment.

The Sub-Fund will not invest more than 10% in aggregate in collective investment funds. The Sub-Investment Manager is Ardevora Asset Management LLP.

**Intended retail investor:** Investment in the Sub-Fund is suitable for investors seeking long term capital growth and who are prepared to accept a degree of high volatility.

**Depositary:** The Fund's assets are held through its Depositary, which is Citi Depositary Services Ireland Designated Activity Company.

**Distribution type:** The product is accumulating.

## ➤ What are the risks and what could I get in return?

### Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance as a medium-high level, and poor market conditions will likely impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Fund's Prospectus available at [www.nedgroupinvestments.com](http://www.nedgroupinvestments.com).

The Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product/benchmark over the last 5 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: \$ 10,000		1 year	5 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress Scenario</b>	<b>What you might get back after costs</b>	\$ 4,550	\$ 3,410
	<b>Average return each year</b>	-54.52%	-19.35%
<b>Unfavourable Scenario <sup>1</sup></b>	<b>What you might get back after costs</b>	\$ 8,160	\$ 8,160
	<b>Average return each year</b>	-18.41%	-3.99%
<b>Moderate Scenario <sup>2</sup></b>	<b>What you might get back after costs</b>	\$ 10,740	\$ 14,950
	<b>Average return each year</b>	7.41%	8.38%
<b>Favourable Scenario <sup>3</sup></b>	<b>What you might get back after costs</b>	\$ 15,000	\$ 19,270
	<b>Average return each year</b>	49.96%	14.02%

<sup>1</sup>This type of scenario occurred for an investment from 2021-09-30 to 2022-09-30

<sup>2</sup>This type of scenario occurred for an investment from 2013-08-31 to 2018-08-31

<sup>3</sup>This type of scenario occurred for an investment from 2016-11-30 to 2021-11-30

## ➤ What happens if Nedgroup Investments (IOM) Limited is unable to pay out?

You may face a financial loss should the manufacturer or the Depository, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## ➤ What are the costs?

### Cost over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- \$ 10,000 per year is invested

Example investment: \$ 10,000	If you cash in after 1 year	If you cash in after 5 years
<b>Total costs</b>	\$ 421	\$ 1,425
<b>Annual cost impact(*)</b>	4.22%	1.99%

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.37% before costs and 8.38% after costs.

### Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		Annual cost impact if you exit after 5 years	
<b>One-off costs upon entry or exit</b>	<b>Entry costs</b>	<b>3.00% of the amount you pay in when entering this investment</b>	\$ 300
	<b>Exit costs</b>	<b>We do not charge an exit fee for this product, but the person selling you the product may do so.</b>	\$ 0
<b>Ongoing costs taken each year</b>	<b>Management fees and other administrative or operating costs</b>	<b>0.92% of the value of your investment per year. This is an estimate based on actual costs over the last year.</b>	\$ 92
	<b>Transaction costs</b>	<b>0.29% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.</b>	\$ 28.51
<b>Incidental costs taken under specific conditions</b>	<b>Performance fees and carried interest</b>	<b>There is no performance fee for this product.</b>	\$ 0

---

## ➤ How long should I hold it and can I take my money out early?

---

**The recommended minimum holding period: 5 years.**

This product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 5 years. You may sell your shares in the product, without penalty, on any day on which the banks are normally open for business in Ireland and the Isle of Man.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

---

## ➤ How can I complain?

---

If you wish to make a complaint, you should in the first instance do so either orally or in written format. Please direct complaints to any of the following:

By e-mail: [helpdesk@nedgroupinvestments.com](mailto:helpdesk@nedgroupinvestments.com)

By telephone:
