Unit trusts are generally mollum- to long-term investments. The value of units may go down as well as up and past performance is not necessarily a guide to the future. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Different classes of units may apply to these portfolios and are subject to different fees and chage. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio induling any home accruas and less any permissible deductors (prokerage, Uncerfied Securities Tax, VAT, audior's bes, bank chages, trustee and custolian fees and the arrued management fee) from the portfolio, divided by the number of units in its bus, Aschedule of maximum fees and charges is available on request from us. Fees and incentives may be paid and if so, are induled in the overall costs. Portfolios are valued daily at 15:00.
