FUND OBJECTIVE

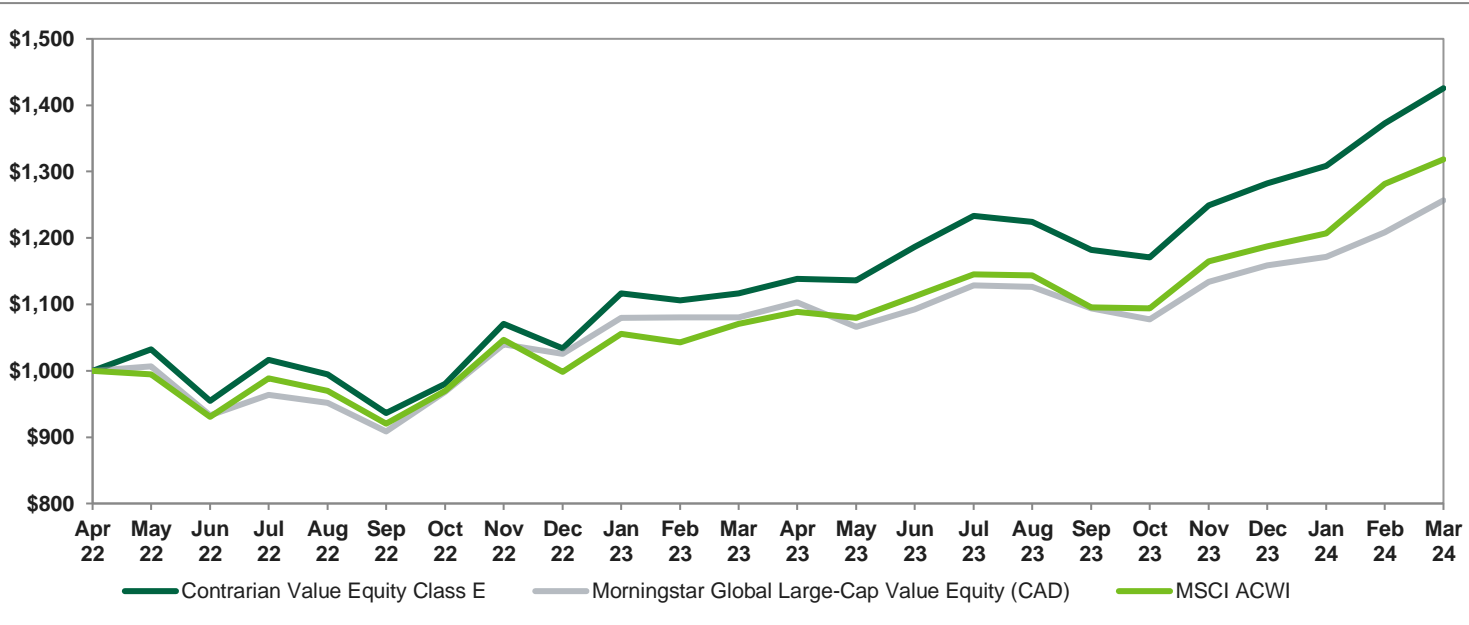

A global equity portfolio that aims to provide investors with long-term capital growth through active stock selection in global equity markets. The fund aims to outperform global equity markets over the long-term, with an equivalent level of risk; the focus will be mid and large-cap companies across all geographies and sectors. The Sub-Fund is actively managed and is not managed in reference to any benchmark.

INVESTOR PROFILE

The portfolio is suitable for investors seeking global exposure to developed financial markets as part of their overall investment strategy, with maximum capital appreciation as their primary goal. Investors should have a high tolerance for short-term market volatility in order to achieve long-term objectives.

1) Performance net of fees. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of any reinvestment and dividend withholding tax. Data source Nedgroup Investments (IOM) Limited.

2) The on-going fee is a measure of the actual expenses incurred in the management of the Classes of the Sub-Fund. The on-going fee shown is expressed as a percentage of the monthly average value of the portfolio calculated over a 12-month period as at the date shown. The current on-going fee cannot be used as an indication of future on-going fees. A higher on-going fee does not necessarily imply a poor return, nor does a low on-going fee imply a good return. The on-going charge will be capped at 20bps.

Funds are generally medium to long-term investments. The value of your investment may go down as well as up. International investments may be subject to currency fluctuations due to exchange rate movements. Past performance is not necessarily a guide to future performance. Nedgroup Investments does not guarantee the performance of your investment and even if forecasts about the expected future performance are included you will carry the investment and market risk, which includes the possibility of losing capital.
